

Summer 2017 Work
Laurie Smith

Dates & Hours	Short Overview	How links to my work/ overall Strategic Plan
Aug 10, 2017 Whole day	Curriculum Prep I researched data (YRBS, DAP), last year's curriculum, Know Your Body, and my skills-based health text to prepare for curriculum work with Melissa.	Melissa and I are building a comprehensive preK-12th grade scope and sequence for Bethel's health program. This incorporates national standards and state proficiencies and emphasizes a skills-based approach, which is considered best practice in the health ed. field.
Aug 11, 2017 Whole day	Prek-12 Curriculum Mapping Melissa and I reviewed data and identified priorities then worked to lay out skills, proficiencies, standards, and topics at every grade level.	Our work helps meet objectives 1.1, 1.2, and 1.3 of WRVSU's strategic plan.
Aug. 12, 2017 Whole day	Elementary Curriculum Mapping I worked on my own to complete elementary health indicators and topics as well as to lay out the 2017 curriculum in detail.	This was a deeper dive into curriculum planning at the elementary level. My goal is to use the curriculum to genuinely guide my planning rather than have it be a nice-looking but essentially fake overview of elementary health!
Aug 18th, 2017 Whole day	Curriculum Alignment and Finalization Melissa and I worked to sync our plans and decide what lessons should be emphasized at different grade levels. I also worked to finalize elementary curriculum for the year ahead.	Notes from our work: https://docs.google.com/a/wrvsu.org/document/d/1ZHL6glq3gcb4SXXckFsFS5rA7VJRWqj8_BF10gkPMM4/edit?usp=sharing We have not finished formatting the curriculum but it can be viewed at: https://docs.google.com/a/wrvsu.org/document/d/1CsOj0qreiVLIC6e7GHXseyDxQouoo5H821sdCvPSQkw/edit?usp=sharing
