

Dear Families,

Last month during health class, students learned about the importance of wearing helmets every time they ride a bike, scooter, or skateboard. Through the generosity of Local Motion, a group that supports biking and walking initiatives throughout Vermont, we are able to give away helmets to students free of charge. Your student is coming home with a helmet because he or she told me that they ride but do not currently have a helmet that fits them. There is no cost or obligation involved in taking a helmet. If you would prefer that your student not keep the helmet they took home, simply have them return it to me. Feel free to call the school or email me at [lsmith@wrvsu.org](mailto:lsmith@wrvsu.org) with any questions. Thanks for your support!
